# HOLLAND IS FAMOUS FOR...

"Indeed"  
..... for its  
quality flower-  
bulbs, but there  
are many other reasons  
why Holland is so well  
known and has become,  
considering its size, such  
an important "dot" on the  
globe; for example its work-  
manship, its traditions, its  
delicacies and its art, as  
shown by us in this  
catalog, which you  
will find very  
interesting,  
for sure.

On this and the next pages you will find the most popular flowerbulb varieties. In order to help you plan your "Spring Garden" we have numbered each variety according to its blooming time, so as long as you plant one item from each page or category, next spring your garden will be a continuous showplace for 6 till 8 weeks.
